Education for Women, Ludhiana

VISION

Develop interest and passion for science and provide knowledge, skills and behaviour necessary to become effective science teachers and responsible citizens of the society

OBJECTIVES

- To create interest in latest inventions and discoveries in science
- To get acquainted with the life history and contribution of great scientists
- To explore and develop the constructive, creative and explorative potential of the members of the society.
- To inculcate scientific attitude among the members of society.
- To encourage group work and develop leadership qualities.
- To provide a platform for developing administrative and organizational skills
- To develop awareness of society members about various environmental issues and increase their participation in the building of a safe and healthy environment
- To sensitize the public about superstitions and various environmental problems
- To write articles related to science for college magazine
